2. CORE DESCRIPTION										
This core funding supports staff and operations of the Division of Senior and Disability Services (DSDS). DSDS is comprised of four programmatic components: 1) Section of Home and Community Based Services (HCBS) which now includes the Bureau of Special Health Care Needs; 2) Section of Adult Protective Services (APS); 3) Bureau of Senior Programs; and 4) Office of Long Term Care Ombudsman. DSDS plays a crucial role as the state unit on aging and is the primary agency that oversees, monitors, and assures the health and safety of seniors and individuals with disabilities receiving long-term care in their home or community as an alternative to facility-based care. DSDS investigates allegations of abuse, neglect, and financial exploitation of seniors and adults with disabilities; registers hotlines and regulatory complaints regarding care; informs individuals considering long-term care about home-based care options; provides oversight for eligibility determinations and authorizations of HCBS; advocates for resident rights and resolves complaints regarding nursing facility care; provides customer service to seniors and individuals with disabilities and their caregivers; and oversees the Older Americans Act funded programs administered by the Area Agencies on Aging.										
Funding is utilized to support adult protective service activities, crisis intervention, complaint investigation, and HCBS administration, implementation, and quality assurance activities as mandated under Chapters 197, 198, 208, 565, 570, and 660, RSMo; participation in six 1915(c) waivers through the Centers for Medicare and Medicaid Services; and the Older Americans Act.

1a. What strategic priority does this program address?
 Whole Person Health Access.

1b. What does this program do?
 Adult Protective Services team:

- Investigates allegations of abuse, neglect, and financial exploitation (A/N/E) of individuals over age 60 and those with disabilities who are age 18 to 59;
- Coordinates appropriate intervention services to allow those individuals to remain in the least restrictive environment and prevent future incidents;
- Interprets state and federal laws, rules, and regulations;
- Sets policies and provides training to HCBS providers and DSDS staff.

The Central Registry Unit (CRU) team:

- Serves as the Adult Abuse and Neglect Hotline for the Division of Senior and Disability Services (DSDS) and the Division of Regulation and Licensure (DRL). The hotline operates 365 days per year from 7 A.M. to 8 P.M. and has an online reporting option available 24 hours a day.
- Serves as the point of entry for registering allegations of abuse, neglect, or exploitation of Missouri's elderly and adults with disabilities and for regulatory violations of nursing and residential care facilities, home health agencies, hospice agencies, and hospitals.
- Processes reports referred to other entities such as the Department of Mental Health, the Department of Social Services Missouri Medicaid Audit and Compliance Unit, and the Veterans Administration for intervention or review.
- Serves as the information and registration entry point for the Shared Care Program and tax credit.

The Special Investigations Unit:

- Assists in complex and/or criminal investigations of alleged abuse, neglect, or financial exploitation for seniors and adults with disabilities between the ages of 18 to 59.
- Acts as a liaison between DSDS staff, local law enforcement, local prosecuting attorneys, and the Missouri Attorney General's Office.

Central Registry Unit - Intake Actions

In FY 2020 and 2021, DSDS implemented process improvements that allowed CRU to more appropriately classify incoming calls and divert part of the intake of abuse, neglect, and exploitation reports to investigation staff. Additionally, intake actions were reduced due to COVID-19 as fewer reports were made by mandated reporters who regularly interacted with potential victims.

*Other: Shared Care Requests and/or complaints received for other state agencies like Health Services Regulation or Bureau of Special Health Care Needs.

Adult Protective Services Reports Investigated

Emergency reports require the adult to be in imminent risk or be experiencing danger to his or her health, safety, or welfare as well as a substantial probability that death or serious injury will result. Examples include such issues as severe physical abuse, sexual abuse, or caregiver neglect. Emergency reports require immediate investigation and intervention when necessary.

Average Number of Days from Date Received to Completion of an Adult Protective Services Investigation

The national average for investigation completion is 67.8 days; data provided by the National Adult Maltreatment Reporting System (NAMRS) FFY 2021. Common actions taken during an investigation include: interviews, information gathering, providing appropriate interventions, and making referrals to appropriate agencies.

Abandoned/Deflected Calls

The number of abandoned/deflected calls has shown an overall decrease due to a series of process improvements. Abandoned calls occur when the caller hangs up or disconnects after five seconds in the call queue, and deflected calls occur during CRU's business hours when callers are unable to be placed in the queue. CRU's goal is to continue process improvements and reduce abandoned/deflected calls to 14 percent of calls which is the current statewide call center average.

Adult Protective Service Visits Resulting from Intake

As a result of the intake of abuse, neglect, and exploitation reports, Adult Protective Services staff make home visits based upon the allegations and/or information received. Not all reports received by DSDS require a home visit to resolve or remediate issues, and some adults cannot be located. Reports not requiring a visit still require investigation. Due to COVID-19, the number of home visits in FY 2020 and FY 2021 were significantly reduced to protect the vulnerable population served by Adult Protective Services. Additionally, DSDS received fewer reports due to isolation from community and mandated reporters.

Recidivism Rate for Adult Protective Services Reports

Recidivism rate is the percentage of adults having repeat reports of Abuse, Neglect, and Exploitation in a given fiscal year. The goal is to reduce the rate of recidivism by providing appropriate and effective interventions during the first report; however, the needs of the individual may change after the report has been closed resulting in an additional report.

FY 2022 Adult Protective Services Interventions

When responding to an Adult Protective Services Report, staff use interventions to address an adult's unmet needs or reduce the risk of Abuse, Neglect, or Exploitation. The categories above were developed to provide information to the National Adult Maltreatment Reporting System (NAMRS), the national data collection system for Adult Protective Services. In FY 2022, Adult Protective Services staff used approximately 115,000 interventions during the investigation of Abuse, Neglect, or Exploitation of vulnerable adults in Missouri.

Additional descriptions of category titles:

Care/Case Mgt: Involves the development and implementation of a service plan to mobilize the formal and informal resources and services identified in the assessment to meet the needs of the eligible adult.

DD/Habilitation: Provided for adults with developmental disabilities, physical disabilities and/or visual and auditory impairments to maximize potential, alleviate the effects of the disability, and enable them to live in the least restrictive environment possible.

Financial Management: Services or activities to assist in managing finances or planning for future financial needs, such as bank record reviews, wills, and budgeting.

Law Enforcement: Any services provided by law enforcement such, as crisis intervention, police reports, or driver's condition reports.

Public Assistance: Services and activities provided to obtain assistance for individuals who lack the resources to provide basic necessities for themselves and their families such as SNAP, Medicaid/Medicare, or financial aid programs.

Victim Services: Services and activities provided to, or on behalf of, victims at any stage of the criminal justice process. Programs supporting victims of domestic violence, sexual assault, abuse of older women, violence against women, and general crimes which are being handled by the police or prosecutors' offices.

1b. What does this program do?

The Division of Senior and Disability Services (DSDS) operates Missouri's Medicaid-funded Home and Community Based Services (HCBS) program which serves 63,000 Missourians and is rapidly growing as the population ages. Missouri statute and regulations as well as federal regulations provide the following requirements DSDS must adhere to while operating HCBS:

- Process and complete initial assessments for referrals for HCBS within 15 business days (Section 208.895, RSMo);
- Conduct an annual reassessment for each HCBS beneficiary (Section 208.906, RSMo; CFR 441.302(c)(2) and CFR 441.720(b));
- Review reassessments conducted by providers prior to completion; and
- Perform regular care plan modifications to ensure the services authorized reflect beneficiaries' changing needs. Examples of care plan modifications can include a change in provider, number of units, or to reflect a different need for services/tasks provided by a caregiver.

Staff also perform the following administrative functions for the Medicaid HCBS program:

- Interpret state and federal laws, rules, and regulations;
- Ensure compliance with the Medicaid State Plan and applicable Medicaid Waivers administered by the division; and
- Set policies and provide training to HCBS providers and DSDS staff.

1a. What strategic priority does this program address?

Whole Person Health Access.

1b. What does this program do?

- The Missouri State Long Term Care Ombudsman Program (LTCOP) is federally mandated by the Older American's Act. Department of Health and Senior Services (DHSS) is the operating entity in Missouri for this program. Due to the COVID-19 pandemic Ombudsmen were not allowed indoor access to long-term care facilities per federal guidance from Centers for Medicare and Medicaid Services (CMS) and state guidance from the DHSS. The state guidance allowed Assisted Living and Residential Care facilities to have the final discretion on whether Ombudsmen could visit or not. (Ombudsman were not allowed to visit March 2020-March 2021 per CMS. March 2022 to April 2022 Ombudsman were not allowed to visit if the facility had any COVID cases, per State Ombudsman policy.)
- LTCOP advocates for the rights of over 55,000 residents residing in approximately 1,189 licensed long-term care facilities and 7 Veterans Homes across the state. Ombudsman advocate by conducting visits to the facilities on a regular basis, investigating complaints, and providing information and assistance.
- LTCOP relies heavily on volunteers to sustain the program, and has ongoing efforts to recruit ombudsman volunteers state-wide to resolve complaints, such as resident rights and quality of care.
- LTCOP maintains a toll-free number for residents and family members to access ombudsman services.
- LTCOP provides educational materials to the public through publications, community events, and presentations.
- Missouri's LTCOP program is a decentralized structure, which includes three and a half federally funded state employees, including the State Long Term Care Ombudsman (SLTCO); 18.5 regional ombudsman, either contracted or employed by the Area Agencies on Aging (AAA); and approximately 78 ombudsman volunteers across the state. The regional ombudsman are provided programmatic oversight by the SLTCO.
- State, regional, and volunteer ombudsmen are required to receive 36 hours of training to be certified and designated per the Ombudsman Federal Rule.

The number of complaints fluctuates some year to year depending on how comfortable residents are with voicing complaints. The Ombudsmen are currently working on re-building relationships with residents after being out of facilities during COVID-19.

Complaints Investigated by State FFY 2020

Federal Fiscal Year 2020 is the most current data available from the Administration for Community Living (ACL). Missouri Long-Term Care Facilities Visited At Least Quarterly by an Ombudsman

Ombudsman are encouraged to visit facilities on a quarterly basis. The minimum is twice a year per facility according to the Missouri Long-Term Care Ombudsman Policy and Procedure Manual. Due to COVID-19, ombudsman were not allowed to visit facilities in person March 13, 2020 through March 2021 and beyond if the facility had an active COVID case, making projections much lower. A very small number of facilities met the COVID safety guidelines and/or were willing to allow the ombudsman to conduct window or outdoor visits with residents during the pandemic. The loss of volunteers will impact the program's ability to conduct regular visits until the volunteer network is increased.

A lot of complaints regarding COVID restrictions were not able to be resolved to the residents satisfaction due to public health guidelines and requirements out of the Ombudsman's control.

*The national average for FFY 2021 is not yet available from the Administration for Community Living (ACL); therefore, a projection has been provided. The number of volunteers is decreasing in Missouri and nationally due to volunteers aging out of the program. Federal Funds: Department of Health and Senior Services Federal Fund (0143, Department of Health and Senior Services Federal Stimulus (2350), and Department of Health and Senior Services Federal Stimulus - 2021 (2457).										
2. CORE DESCRIPTION										
This core funding provides temporary protective services for eligible adults who have been victims of abuse, neglect, or financial exploitation. The Division of Senior and Disability Services', Social Services Specialists authorize and arrange for short-term services to allow individuals to remain in their homes and communities. These in-home services can include personal care, nurse visits, respite care, adult day care, and home delivered nutrition services.										
Adult Brain Injury (ABI) Program provides service coordination and community based rehabilitation services. Participants of ABI are ages 21 to 65 who are living with a traumatic brain injury (TBI). Service coordination links the participants to resources to enable each person to obtain goals of independent living, community participation, and/or employment. Participants may also receive community-based rehabilitation services to help achieve their identified goals. Rehabilitation services include counseling, vocational training, employment supports, and home and community-based support training.										
The Children and Youth with Special Health Care Needs (CYSHCN) Program provides service coordination for children under the age of 21 who meet medical eligibility criteria and provides limited funding for preventative, diagnostic, and treatment healthcare services for those children whose families also meet financial eligibility.										
This core also includes the Non-Medicaid Eligible (NME) Consumer Directed Services Program, which funds services to meet personal care needs for consumers who are not Medicaid eligible. Individuals must meet annual eligibility requirements regarding income, assets, and need assistance with activities of daily living. State statute places a cap on this program and no new participants may be enrolled. The program is set to sunset June 30, 2025.

1a. What strategic priority does this program address?

Whole Person Health Access.

1b. What does this program do?

The Adult Protective Services Short-term Interventions program provides temporary services to eligible adults who have been victims of abuse, neglect, or financial exploitation. Funding for this program pays for emergency services and evaluations to assist/assess the victim in remaining safely in their homes and communities. These non-Medicaid funded services fill the gap while waiting for eligibility for other programs to be determined or when no other formal/informal resource is available for needed oversight.

2a. Provide an activity measure(s) for the program.

Participants Receiving Short-Term Intervention Adult Protective Services

In FY 2021, DSDS completed process improvements to the short-term intervention program that allowed employees to quickly assist more Missouri citizens who fall victim to urgent situations of abuse, neglect, and exploitation when other local resources are not immediately available. This allowed the number of persons receiving services to significantly increase in FY 2022.

PROGRAM DESCRIPTION

Health and Senior Services

HB Section(s): 10.805

Adult Protective Services (Short-term Interventions)

Program is found in the following core budget(s):

2a. Provide an activity measure(s) for the program.

Direct Services Program Funded by Federal COVID funds by AAA's.

The Direct Services Program is funded through the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 (CRRSAA) and the American Rescue Plan Act of 2021 (ARPA) to assist eligible adults in remaining in the least restrictive environment and, by doing so, improve their overall quality of life and health. The Direct Services Program provides short-term interventions for adults experiencing abuse, neglect, or exploitation. DHSS contracted with the Area Agencies on Aging to administer the funding and provide case management services. Funding was allocated based on the number of hotlines in the AAA's service area. Adult Protective Services staff will access this resource after all others have been exhausted. DSDS projects that a minimum of 426 at-risk Missourians will benefit annually.

2b. Provide a measure(s) of the program's quality.

Short-term Intervention Services

Short-term interventions are provided to adults who require a variety of person-centered services. Interventions are based upon individual needs and community availability. The goal of interventions provided is to reduce some of the adult's risk factors, such as assuring community placement over nursing facility care.

PROGRAM DESCRIPTION

Health and Senior Services

HB Section(s): 10.805

Adult Protective Services (Short-term Interventions)

Program is found in the following core budget(s):

2c. Provide a measure(s) of the program's impact.

Participants Receiving Short-Term Intervention Services that Did Not Enter a Facility

Individuals receive short-term intervention services in an attempt to prevent facility placement within the year in which the short-term services are received.

2d. Provide a measure(s) of the program's efficiency.

Annual Cost per Individual for Intervention Services as Compared to Nursing Facility Placement

Short-term intervention services participant cost varies depending upon individual emergent needs, excluding the Direct Services Program.
 Note: Nursing Facility cost data provided by the Department of Social Services, MO HealthNet Division.

PROGRAM DESCRIPTION

Health and Senior Services

HB Section(s): 10.805

Adult Protective Services (Short-term Interventions)

Program is found in the following core budget(s):

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

4. What are the sources of the "Other " funds?

Not applicable.

5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 192.2400 - 192.2505, RSMo.

6. Are there federal matching requirements? If yes, please explain.

No.

7. Is this a federally mandated program? If yes, please explain.

No.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The American Rescue Plan Act (ARPA) of 2021 granted states formula-based awards to be utilized on Adult Protective Services (APS). The second round ARPA award of \$2,979,772, is intended to create long-term enhancements to the APS infrastructure. The amount requested represents the additional authority needed above the funding received for the first round of ARPA in FY 2023.

DSDS proposes use this funding to continue the efforts initiated with the earlier COVID APS federal grants, including the following:

- Collaboration with AAAs to assist victims of abuse, neglect, and exploitation to access needed goods and services that are otherwise not available (including part-time staff for coordination);
- Part-time staff PS costs to focus on quality assurances of investigations received during pandemic;
- Public outreach resources and materials to increase public awareness of APS' functions (including part-time staff for coordination);
- Pursue training and professional development for APS staff;
- Pursue initiatives to expand APS best practices (i.e. Adult Abuse Multi-Disciplinary Teams);
- Enhance the safety preparedness of APS staff by acquiring safety equipment and training;
- Enhancements to APS' case management IT system;
- Pursue project management resources to ensure effective implementation of projects being pursued with federal funding; and
- Acquire a TeleHealth-type service to facilitate virtual interactions between APS staff and clients and other key stakeholders.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The amount requested is equivalent to the anticipated carryover from the first ARPA award, plus the full Notice of Award received for the second ARPA award, less authority already received in the FY 2023 budget.

<p>1a. What strategic priority does this program address? Whole Person Health Access.</p> <p>1b. What does this program do? Special Health Care Needs (SHCN) supports individuals with disabilities and chronic illness to improve their level of independence and overall health status by providing service coordination and authorization of program specific healthcare support services. SHCN serves both Medicaid and Non-Medicaid participants. The Medicaid programs have been incorporated in the Home and Community Based Medicaid Services Program Description. Non-Medicaid programs within Special Health Care Needs include:</p> <ul style="list-style-type: none"> • <u>The Children and Youth with Special Health Care Needs (CYSHCN) Program</u> provides service coordination for children under the age of 21 who meet medical eligibility criteria and provides limited funding for preventative, diagnostic, and treatment healthcare services for those children whose families also meet financial eligibility. • <u>Adult Brain Injury (ABI) Program</u> provides service coordination and community based rehabilitation services. Participants of ABI are ages 21 to 65 who are living with a traumatic brain injury (TBI). Service coordination links the participants to resources to enable each person to obtain goals of independent living, community participation, and/or employment. Participants may also receive community-based rehabilitation services to help achieve their identified goals. Rehabilitation services include counseling, vocational training, employment supports, and home and community-based support training. <p>The above programs are administered through contracts with participating local public health agencies (LPHAs).</p>

Non-Medicaid Special Health Care Needs Programs

Program is found in the following core budget(s):

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

4. What are the sources of the "Other " funds?

Health Initiatives (0275), Brain Injury (0742), C&M Smith Memorial Endowment (0873), and Children's Special Health Care Needs Service (0950).

5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 201.010 to 201.130, RSMo; Title V of the Social Security Act, Maternal and Child Health Block Grant, Sections 501 to 514; Sections 192.735-192.745, 199.003-199.009, and 304.028, RSMo; Title XIX of Social Security Act.

6. Are there federal matching requirements? If yes, please explain.

Yes, the Maternal and Child Health Grant supports SHCN and requires a three dollar non-federal, four dollar federal match; and maintenance of effort. In addition, Medicaid funds support a portion of SHCN, requiring General Revenue funds to match Federal funds. The TBI grant requires a 50 percent match of state funds for every federal dollar granted.

7. Is this a federally mandated program? If yes, please explain.

Yes, states receiving the Maternal and Child Health Block Grant funds are required to have a Children with Special Health Care Needs Program. Also, the existence of a brain injury advisory council is required in order to receive the federal TBI grant. (TBI grant funds may not be used for direct services or care coordination.)

1a. What strategic priority does this program address?

Whole Person Health Access.

1b. What does this program do?

This program provides Consumer Directed Services (CDS) for Non-Medicaid Eligible (NME) adults with disabilities who need assistance in accessing care or services to perform activities of daily living necessary to maintain independence and dignity in the least restrictive environment of their choice including their homes and communities. Participants must meet all criteria set forth in Sections 208.900 to 208.930, RSMo. The NME program is available only to those participants who were receiving consumer directed services funded through NME prior to June 30, 2005, when program enrollment was frozen; no new participants shall be added to the NME program. The program was designed to assist participants who had extensive health care needs, but did not qualify for Medicaid-funded Home and Community Based Services (HCBS). Participants receiving services funded through the NME program are eligible for those services throughout their lifetime and may be added or removed from the program as necessary. The NME program will sunset on June 30, 2025, unless the program is renewed through legislative action.

2a. Provide an activity measure(s) for the program.

Program is found in the following core budget(s):

2b. Provide a measure(s) of the program's quality.

NME Participants Who Received a Financial Review, Eligibility Review, and a Timely Reassessment

Timely Reassessment indicates an NME participant was reassessed within the required 365 day timeframe.

2c. Provide a measure(s) of the program's impact.

NME Participants Who Remain in their Home vs. Admission to a Skilled Nursing Facility or Hospital

PROGRAM DESCRIPTION

Health and Senior Services

HB Section(s): 10.805

Non-Medicaid Eligible Service

Program is found in the following core budget(s):

2d. Provide a measure(s) of the program's efficiency.

Average Annual Cost of NME Per Participant

NME results in lower expenditures to the state long-term and a cost savings to the participant. Long-term NME allows the participant to receive services and it is anticipated that the participant's assets would be exhausted on average within six months without the NME program resulting in the participant meeting Medicaid eligibility; therefore, increased cost to the state. Beginning FY 2018, all Medicaid Consumer Directed Service participants, including NME participants, had care plan reductions to 60 percent of the average nursing facility cost per House Bill 10, Section 10.806.

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

2. CORE DESCRIPTION									
Home and Community-Based Services (HCBS) allows Medicaid eligible seniors and individuals with physical disabilities access to a variety of long-term services and supports in the community that promote independence, health, and quality of life in their community or least restrictive setting. HCBS may include personal care, attendant care, nurse visits, adult day care, homemaker, respite, and home delivered meals, specialized medical/adaptive equipment, medical supplies, private duty nursing, health screenings, and subsequent treatment for identified health problems. Service options may vary depending on specific qualifying criteria for each HCBS option.									
The Division of Senior and Disability Services (DSDS) is responsible for HCBS eligibility determination and authorization. DSDS manages HCBS benefits authorized under the Medicaid State Plan, and administers six 1915(c) waivers (Aged and Disabled Waiver, Adult Day Care Waiver, Independent Living Waiver Structured Family Caregiving Waiver, Traumatic Brain Injury Waiver, and Medically Fragile Adults Waiver) that provide HCBS benefits to seniors and individuals with disabilities who would otherwise be eligible to receive care in a skilled nursing facility or intermediate care facility. The Division of Community and Public Health (DCPH) administers the AIDS Waiver to individuals with serious medical needs who would otherwise be eligible to receive care in an intermediate care facility.									
This core also contains funding to reimburse providers for annual reassessments of participants as required by Section 208.906, RSMo.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 58844C and 58847C BUDGET UNIT NAME: Division of Senior and Disability Services HOUSE BILL SECTION: 10.810 and 10.815	DEPARTMENT: Department of Health and Senior Services DIVISION: Division of Senior and Disability Services
1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.	
DEPARTMENT REQUEST	
The department requests continuation of ten percent (10%) flexibility between Consumer Directed and Agency Directed Services that the legislature approved in FY 2023. Participant choice between Consumer Directed and Agency Model Programs make it difficult to estimate which budget line the Medicaid expenditures will incur under.	
2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.	
PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
\$0	HB 10.810 and 10.815 language allows up to ten percent (10%) flexibility between Consumer Directed and Agency Directed Services.
BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	
Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of governor's reserve, restrictions, and core reductions impact how the flexibility will be used, if at all. The department's requested flex will allow the department to utilize available resources in the most effective manner as the need arises. The department cannot predict how much flexibility will be utilized.	
3. Please explain how flexibility was used in the prior and/or current years.	
PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
Not	Not applicable.

1a. What strategic priority does this program address?

Whole Person Health Access.

1b. What does this program do?

This program provides Medicaid Home and Community Based Services (HCBS) to allow individuals with disabilities and seniors to remain safe and independent in the least restrictive environment as an alternative to institutional care.

- Program Medicaid eligibility is determined by the Department of Social Services, Family Support Division (FSD). Service eligibility requires all participants to meet nursing facility level of care (LOC). Department of Health and Senior Services (DHSS) staff complete LOC assessments to determine whether HCBS participants are at a functional level of need that would require institutional care without the assistance of HCBS. Program eligibility is reassessed annually.
- HCBS provides assistance with Activities of Daily Living (ADL) and Instrumental Activities of Daily Living (IADL). ADLs include assistance with dressing, grooming, meal preparation, bathing, toileting, etc. IADLs include laundry, light housework, financial management services, grocery shopping, transportation, etc.
- HCBS includes the following waiver and state plan services:
 - ° Adult Day Care Waiver: provides Adult Day Care services to adults aged 18 to 63 in an effort to promote community and social engagement;
 - ° AIDS Waiver: provides personal care and support services to Missourians diagnosed with HIV;
 - ° Aged and Disabled Waiver: provides Homemaker, Respite, Chore, and Adult Day Care services to adults aged 63+ to ensure each participant has the tool and support needed to remain in the least restrictive environment possible;
 - ° Brain Injury Waiver: provides personal care and support services to Missourians aged 21 to 65 who are living with traumatic brain injury;
 - ° Healthy Children and Youth Program: provides medically necessary in home services (for example personal care and nursing care) to Missourians under the age of 21 with complex medical needs whose needs cannot be met through Missouri's State Plan programs;
 - ° Independent Living Waiver: provides self-direction services beyond the allowable maximum of the Consumer Directed Services program to adults aged 18 to 64 in order to provide the support necessary for participants to remain in their homes and communities;
 - ° Medically Fragile Adult Waiver: provides medically necessary in home services (for example personal care and nursing care) to Missourians aged 21+ with complex medical needs;
 - ° Structured Family Caregiving Waiver: provides personal care, light housework, medication oversight, and transportation services to adults aged 21 to 64 with a dementia related diagnosis; and
 - ° State Plan Personal Care (Agency-Model and Consumer Directed) services: provides personal care and other support services to adults aged 18+ in order to allow them to remain in their homes and communities as an alternative to institutional care.

2d. Provide a measure(s) of the program's efficiency.

The cost for MFAW participants to receive services at home is significantly less than the cost for these individuals to live in an ICF/IID. The SFY 2020 and 2021 data is in accordance with the approved MFAW application for SFY 2017 to 2021. The SFY 2022, 2023, 2024, 2025 data is in accordance with the approved MFAW application for SFY 2022 to 2026. The target is to keep MFAW in-home care costs less than the cost of ICF-IID Care. Due to provider billing processes, the actual annual MFAW In-Home Care cost is not determined for a minimum of eighteen months following the end of the SFY.

Program is found in the following core budget(s):

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

4. What are the sources of the "Other " funds?

None.

5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Title XIX and Title XX of the Social Security Act; PL 89-73 Older Americans Act, updated in 2006 by PL 109-365; and Sections 192.2000, 192.2400 to 192.2505, 201.010 to 201.130, 208.152, and 208.900 to 208.930, RSMo.

6. Are there federal matching requirements? If yes, please explain.

Yes, HCBS provided under State Plan Personal Care, the Adult Day Care Waiver, the Aged and Disabled Waiver, the Independent Living Waiver, the AIDS Waiver, the Medically Fragile Adult Waiver, Brain Injury Waiver, and Healthy Children and Youth (HCY) are matched by General Revenue according to the standard Federal Medical Assistance Percentage (FMAP) rate for activities related to home and community-based care for eligible participants.

7. Is this a federally mandated program? If yes, please explain.

No. Due to Missouri opting to offer HCBS, oversight of federal funding is required for use of Title XIX and Title XX of the Social Security Act funds and PL 89-73, Older

2. CORE DESCRIPTION

The Division of Senior and Disability Services (DSDS) operates Missouri's Medicaid-funded Home and Community Based Services (HCBS) program which serves 63,000 Missourians and is rapidly growing as the population ages. The American Rescue Plan Act awarded states a temporary enhanced federal match percentage (FMAP) for all HCBS services. The State received a 10 percent temporary increase for the period of 4/1/21 to 3/31/22 for specified HCBS offered across DHSS, DMH, and DSS. To be eligible for the FMAP increase, the state cannot use the funding increase to supplant state funding and must use it for one or more activities to enhance, expand, or strengthen HCBS. This section funds specific initiatives to enhance HCBS within DSDS utilizing the HCBS enhanced FMAP Fund.

The Department of Health and Senior Services, Division of Senior and Disability Services (DSDS) provides services to over 60,000 individuals through the Home and Community Based Services (HCBS) program. The HCBS provision in the American Rescue Plan Act increases the federal matching rate (FMAP) for Medicaid HCBS spending by 10 percentage points from April 1, 2021 through March 31, 2022. States must use these funds "to enhance, expand, or strengthen" current Medicaid HCBS. Funds are required to supplement what is available under the state's Medicaid program as of April 1, 2021, and must be expended by March 31, 2025.

Health and Senior Services		Budget Unit	<u>58864C</u>
Senior and Disability Services			
Medicaid HCBS Services Enhancements	DI# 1580004	HB Section	<u>10.820</u>

The funding will be utilized to continue the following HCBS initiatives in FY 2024:

Prescribed Pediatric Extended Care (PPEC) - formerly known as Medically Fragile Daycare Model
\$1,257,753 (all HCBS Enhanced FMAP)
DSDS has begun working with stakeholders to pilot a pre-k daycare model serving medically fragile children. This effort would provide private duty nursing (PDN) services for children with special health care needs outside of the home, specifically in a daycare setting. Participants who receive PDN could receive services while in the care of nurses, teachers, aides, and therapists in a daycare setting to allow the child to build relationships outside of their home or a medical setting; thrive socially and emotionally; and receive preschool education all in one place. Further, PPEC would allow parents currently providing PDN services for their children to work outside the home and those providing PDN services to serve multiple children at one-time.

The goal for the program is to create longevity with this model through state plan services, similar to a PPEC setup in other states, for children receiving MO HealthNet fee-for-service. Funding received in FY 2023 is projected to support four pilot sites and serve up to 24 children, beginning January 1, 2023. This request is to continue the pilot program for a full 12 months before seeking CMS approval to add this service to the Medicaid State Plan.

HCBS Case Management System
\$6,435,416 (90/10 Fed/HCBS Enhanced FMAP Split)
DSDS' HCBS program relies on the use of multiple siloed, legacy technical solutions in order to meet federal and state regulation requirements for case management activities. This siloed approach introduces extraneous processes to the business workflow of the HCBS program, leading to inefficient practices and reduced productivity. To improve program performance and better serve Missourians, DSDS seeks to implement a modern, consolidated, feature-rich case management solution that not only meets the programs' current needs, but ensures the program has effective tools at hand to adapt to the evolving nature of the HCBS program. DSDS received formal approval to proceed with these efforts from the Cabinet Information Technology Governance Council in March 2022.

HCBS Reassessment Partnerships
\$3,943,217 (50/50 Fed/HCBS Enhanced FMAP Split)
In accordance with the FY 2023 budget, DSDS was approved to implement a new value-based model for the completion of Home and Community Based Services reassessments and care planning. This new model will allow for an increased emphasis on the expansion of quality based assessments and care planning. It also allows for the expansion of a provider group that has less conflict of interest when completing the assessments and care plans. The funding received in FY 2023 supports a partial year of this expanded partnership. This item requests additional funding to support the partnership annually.

2. CORE DESCRIPTION TAFP SB 275 from the 2019 legislative session created the Senior Services Growth and Development Program within the Department of Health and Senior Services (DHSS). Funding for the program will be collected by Department of Commerce and Insurance, and is provided by a transfer of five percent of certain premium taxes collected by the state on January 1st each year. Funding is to be utilized solely for enhancing senior services provided by Area Agencies on Aging (AAA) of which 50 percent must be applied to development and expansion of senior center programs, facilities, and services. DHSS will disburse the funding to the AAAs utilizing the current federally required and approved intrastate funding formula.

2. CORE DESCRIPTION

This core decision item funds services and programs for seniors administered via contracts with the ten Area Agencies on Aging (AAAs). Federal Older Americans Act (OAA) funded grants pass through the Department of Health and Senior Services to the AAAs to provide senior programs including congregate and home-delivered meals, and to help prevent unnecessary or premature long-term care facility placement.

Acting as the designated state unit on aging, the Division of Senior and Disability Services (DSDS) has the responsibility of monitoring AAA compliance with OAA mandates, as well as providing technical assistance to enhance program operations. The AAAs and DSDS maintain a close working relationship throughout the state to foster the information-sharing necessary to sustain a coordinated network of aging services.

DSDS allocates Older Americans Act - Title III funds to the ten AAAs using a federally approved intrastate funding formula based on mandated criteria and information about the demographics of Missourians age 60 and over. Community funds, grants, and contributions are also utilized. Additionally, persons receiving services are invited to voluntarily and confidentially contribute toward the cost of the service.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 58850C and 58242C BUDGET UNIT NAME: Division of Senior and Disability Services HOUSE BILL SECTION: 10.830	DEPARTMENT: Department of Health and Senior Services DIVISION: Division of Senior and Disability Services
1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.	
DEPARTMENT REQUEST	
The department requests continuation of ten percent (10%) flexibility between Home and Community Services and meal services granted by the legislature in FY 2023.	
2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.	
PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
\$170,000	HB 10.830 language allows up to ten percent (10%) flexibility between Home and Community Services and meal services.
BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	
Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of governor's reserve, restrictions, and core reductions impact how the flexibility will be used, if at all. The department's requested flex will allow the department to utilize available resources in the most effective manner as the need arises. The department cannot predict how much flexibility will be utilized.	
3. Please explain how flexibility was used in the prior and/or current years.	
PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
Payment of AAA supportive services.	Not applicable.

1a. What strategic priority does this program address?

Whole Person Health Access.

1b. What does this program do?

- The Older Americans Act (OAA) provides supportive services and nutrition programs through ten Area Agencies on Aging to Missourians age 60 and over to help them avoid institutionalization and remain in the location of their choice for as long as they want to be there.
- Primary program funding is received from the federal government pursuant to the Older Americans Act (OAA).
- General Revenue funds are used as the required federal match and Maintenance of Effort for OAA distribution and as a supplement to increase service availability. The minimum state match requirement varies depending on the type of service being provided however, 25 percent is the largest minimum match required for the OAA funds.
- Funding also includes distributions from the Elderly Home Delivered Meals Trust Fund and Social Services Block Grant.

SB 275 from the 2019 legislative session created the Senior Services Growth and Development Fund, which was anticipated to begin in January 2020 however, that funding remains at \$1 for FY 2021, FY 2022, and FY 2023.

PROGRAM DESCRIPTION

Health and Senior Services

HB Section(s): 10.800, 10.820, and 10.825

Older Americans Act Services

Program is found in the following core budget(s):

2a. Provide an activity measure(s) for the program.

Unduplicated Persons Who Received Home Delivered or Congregate Meals

*In FFY 2020 an increase in Home Delivered Meals and a decrease in Congregate meals was due to ongoing safety measures related to COVID-19. This is expected to continue through FY2023 due to older adults continuing to receive home-delivered meals in spite of the majority of the senior centers reopening.

FFY 2021 Supportive Services Provided by AAAs

Supportive services, such as Personal Care, Homemaker, Adult Day Care, Case Management, and Assisted Transportation, help individuals remain in their location of choice. Supportive services for FFY 2021 are identified by the percent of each service provided to Older American Act participants across the state. FFY 2021 is the most recently completed FFY.

PROGRAM DESCRIPTION

Health and Senior Services	HB Section(s): <u>10.800, 10.820, and 10.825</u>
-----------------------------------	---

Older Americans Act Services

Program is found in the following core budget(s):

2a. Provide an activity measure(s) for the program. (continued)

Unduplicated Persons Receiving OAA Supportive Services by Year

*FFY 2020, FFY 2021 and FFY 2022 services were affected by COVID-19 as older adults chose to isolate in their homes. This is also expected to impact growth for FFY 2023, which was adjusted due to this expected impact.

The number of total supportive services (Personal Care, Homemaker, Adult Day Care, Case Management, and Assisted Transportation) provided by the ten Area Agencies on Aging to Older Americans Act participants continues to grow year after year as the aging population increases. FFY 2021 is the most recently completed FFY.

2b. Provide a measure(s) of the program's quality.

Persons at High Nutritional Risk who Received Home-Delivered Meals

*In FFY 2022, it is predicted that persons who receive home delivered meals due to the Pandemic who are not at high nutritional risk will stop receiving meals. Therefore, the percentage of persons receiving home delivered meals who are at high nutritional risk will increase proportionately to a level similar to pre-Pandemic numbers. Persons determined to be at high nutritional risk via an assessment by the AAA are more likely to have higher overall healthcare costs or become institutionalized. Receiving home-delivered meals is one way to help older homebound individuals reduce healthcare costs and remain in the home. The Older Americans Act outlines a number of risk factors outside of high nutritional risk that could also lead to the need for home-delivered meals, including, but not limited to, those individuals with the greatest economic or social need as well as those that are homebound and unable to attend a senior center congregate meal. FFY 2021 was the most recently completed fiscal year.

PROGRAM DESCRIPTION

Health and Senior Services

HB Section(s): 10.800, 10.820, and 10.825

Older Americans Act Services

Program is found in the following core budget(s):

2c. Provide a measure(s) of the program's impact.

Home-Delivered Meals vs. Congregate Meals

Due to the COVID-19 pandemic, all Missouri senior centers closed in March 2020. To ensure seniors continued to receive supplemental nutrition, congregate meal participants were offered home-delivered meals, which they could pick-up curbside at the senior center or have delivered to their homes. In addition, any senior in Missouri that had not previously participated in the supplemental nutrition program was offered the same opportunity. FFY 2021 is the most recently completed FFY.

Eligible Missouri Population Receiving Home Delivered or Congregate Meals

*FFY 2020 was extraordinarily high due to COVID forcing older adults to stay home and isolated which resulted in more older adults accessing meals through the Area Agencies on Aging. Starting in FFY 2021 the number of older adults accessing meals reduced closer to prepandemic numbers. As the population ages, more older adults are expected to need meals from the Area Agencies on Aging. FFY 2021 is the most recently completed FFY.

Older Americans Act Services

Program is found in the following core budget(s):

2d. Provide a measure(s) of the program's efficiency.

State Comparison of Older Adults Receiving Home-Delivered Meals

Missouri continues to provide substantially more meals than neighboring states in the Health and Human Services, Administration for Community Living, Region VII. The number of home-delivered meals rose substantially during FFY 2020 due to the need for older adults to self-isolate. The number of home-delivered meals is expected to slightly decrease for FFY 2021 as more individuals return to the senior centers for congregate meals. FFY 2021 is the most recently completed FFY.

State Comparison of Average Home-Delivered Meal Cost

Missouri's average AAA cost to provide home-delivered meals continues to be competitive compared to neighboring states in the Health and Human Services, Administration for Community Living, Region VII. FFY 2021 is the most recently completed FFY.

Administration Dollars Expended Versus Percent of Administration Dollars Allowed by OAA

*In FFY 2020, DHSS was awarded \$19,276,127 in FFCRA and CARES Act awards. Missouri's efficient use of administrative funding from the original grant allowed DHSS to send the entirety of the additional awarded dollars directly to the AAAs, foregoing the withhold of any administration funding from these awards. While Missouri is allowed to use up to five percent of the allotment from the Older Americans Act grant funds, the state has consistently operated the associated programs for less. Any unused administrative dollars are provided to the Area Agencies for additional programming.

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

PROGRAM DESCRIPTION

Health and Senior Services	HB Section(s): <u>10.800, 10.820, and 10.825</u>
Older Americans Act Services	
Program is found in the following core budget(s):	
4. What are the sources of the "Other " funds? Elderly Home Delivered Meals Trust (0296).	
5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.) Chapter 192, RSMo. Federal Statutory or Regulatory Citation: Title XIX and Title XX of the Social Security Act and PL 114-144, Older Americans Reauthorization Act of 2016.	
6. Are there federal matching requirements? If yes, please explain. Yes, services funded through the Older Americans Act require matching funds. Title III administration and Title III-E family caregiver costs require a 25 percent match. Title III-B supportive program and Title III-C nutrition funding require 15 percent match of which five percent must be state match. No match is required for Title VII and the Nutrition Services Incentive Program (NSIP) funding.	
7. Is this a federally mandated program? If yes, please explain. No. However, state oversight is mandated for states accepting OAA funds.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

TAFP SB 275 from the 2019 legislative session created the Senior Services Growth and Development Program within the Department of Health and Senior Services (DHSS). The Senior Services Growth and Development Program (SSGDP) Fund was established pursuant to Section 192.385.4, RSMo, to provide additional funding for senior services delivered through the area agencies on aging in this state. Funding is to be utilized solely for enhancing senior services provided by Area Agencies on Aging (AAA) of which 50 percent must be applied to development and expansion of senior center programs, facilities, and services. DHSS will disburse the funding to the AAAs utilizing the current federally approved intrastate funding formula.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

TAFP HB 3010 for FY 2023 includes a transfer of \$2.5 million into the SSGDP Fund; however, the ability for the area agencies on aging to utilize those transferred funds remains at \$1 for FY 2023. This item requests access to the transferred funds for the benefit of the area agencies on aging to develop and expand services in accordance with state statute.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Division has received a second American Rescue Plan Act (ARPA) long-term care ombudsman award of \$340,041 to use through September 30, 2025. The Missouri Long-Term Care Ombudsman Program (LTCOP) is federally mandated by the Older American's Act with the Department of Health and Senior Services (DHSS) being the operating entity in Missouri. The LTCOP advocates for the rights of approximately 55,000 residents in approximately 1,164 long-term care facilities across the state. The LTCOP relies heavily on volunteers to sustain the program. Most of the approximately 70 to 80 ombudsman volunteers are in the older age range and have reduced their volunteer time due to the potential exposure risk of COVID. These volunteers make regular visits to nursing facilities and are the direct advocates for those residents. However, due to a volunteer shortage, there's an even greater need for additional paid Ombudsman. (PL 89-73 Older Americans Act, updated by PL 109-365; 42 U.S.C., Section 3058; and 192.2300 through 192.2315, RSMo.)

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

LTCOP advocates for residents in Skilled Nursing Facilities (SNF), Independent Care Facilities (ICF), Assisted Living Facilities (ALF), Residential Care Facilities (RCF), and Veterans Homes. This second federal ARPA award is targeted to expand investigations of alleged abuse, neglect, and exploitation in RCFs and ALFs. Missouri has 632 RCFs and ALFs in the state, consisting of 27,991 licensed beds. The national standard ratio for staff is one paid Ombudsman to every 2,000 licensed beds.

In Federal Fiscal Years 2020 and 2021, LTCOP did not have routine access to visit these types of facilities due to the lack of ombudsman representatives (paid and volunteer) and impacts from COVID-19. During this time period, about 30 percent of RCFs and ALFs received only one visit during the Federal Fiscal Year. The LTCOP plans to use this funding to hire, train, and designate four part-time staff for up to two years to increase visits to these facilities quarterly. These four additional temporary, part-time staff will help the Program provide better access and advocacy to residents living in RCFs and ALFs. The part-time staff hired will need to have specialized skills to do complex conflict resolution and mediation, exhibit strong problem solving skills, be familiar with state regulations that pertain to these facilities and have the ability to work independently within in the framework of established policy. Additionally, these team members would impact the program long term because these team members would increase awareness of the volunteer program to continue to grow our volunteer pool.

The \$174,720 represents the PS authority needed to support the staffing costs for four temporary part-time employees. The associated E&E expenses will be paid utilizing existing core ARPA authority for the Ombudsman program.

2. CORE DESCRIPTION									
This core funding provides reimbursement for contracted assistance programs for persons with Alzheimer's and other dementia-related diseases and their families or caregivers, including caregiver respite grants, education, caregiver training programs and assistive safety devices.									
Alzheimer's disease is an irreversible, progressive brain disorder that slowly destroys memory and thinking skills, and eventually the ability to carry out the simplest tasks. Women age 65 and older have a one in five chance of developing the disease and men have a one in eleven chance. The risk of developing Alzheimer's doubles every five years after age 65. By 2025, the number of people age 65 and older with Alzheimer's disease is estimated to reach 7.1 million, almost a 27 percent increase from the 5.6 million affected in 2019. By 2050, the projected number grows to 12.7 million. Alzheimer's is the sixth leading cause of death in Missouri.

1a. What strategic priority does this program address?

Whole Person Health Access.

1b. What does this program do?

The Customized Caregiver Training and Relief program offers assessment, care coordination, referrals, safety equipment, and training for caregivers in Track 1 (Training) and assessment, care coordination, referrals, and caregiver relief in Track 2 (Relief).

The ultimate goal of this program is to support efforts to decrease premature institutionalization of individuals diagnosed with Alzheimer's disease and other related dementias by reducing caregiver stress, helping caregivers cope, and ensuring the safety of the caregiver's loved one, through either respite for the caregiver's loved one or in-home caregiver training for the caregiver.

The Alzheimer's Association estimates the number of Missourians 65 and older with Alzheimer's was 110,000 in 2018. This estimate has increased to 120,000 for 2020 and is expected to grow to 130,000 by 2025. This estimated growth shows an 18.2 percent increase from 2018 to 2025.

2a. Provide an activity measure(s) for the program.

Unduplicated Clients Served in the Relief Program

*The Alzheimer's Service Program and the Customized Caregiver Training Program were combined for FY 2021 and put out for bid three times before a bid was received. The Customized Caregiver Training and Relief Program contract was awarded 11/05/2020 with 60 days to be fully operational, only allowing five months for enrollments. The subcontractor for this portion of the program has continued to see COVID-related barriers such as older adults and their caregivers not allowing individuals in their home, supply chain issues for necessary products, and has itself experienced staffing issues.

Unduplicated Clients Served in the Training Program

*The Alzheimer's Service Program and the Customized Caregiver Training Program were combined for FY 2021 and put out for bid three times before a bid was received. The Customized Caregiver Training and Relief Program contract was awarded 11/05/2020 with 60 days to be fully operational, only allowing five months for enrollments. The subcontractor for this portion of the contract has refused to serve individuals outside of St. Louis and the surrounding counties. The contractor is in the process of hiring a Community Health Worker who will provide the services in the other three regions of the state. COVID has also caused older adults and their caregivers to not allow individuals into their homes, which is a requirement for this program.

2b. Provide a measure(s) of the program's quality.

Caregiver Training and Relief Survey Results with Positive Responses

*The most recent surveys completed by Missouri Rural Health Association in FY 2022 surveyed all caregivers receiving relief or training provided by the program to determine if the services received helped the caregiver cope with loved one's illness; ensure the safety; and well-being of their loved one, and improve their own well-being. The percent of positive responses to each question are in the chart above. Previous survey results included only Caregiver Relief participants.

2c. Provide a measure(s) of the program's impact.

Cost Savings to Medicaid Based on Average Delayed Institutional Placement

*73 percent of survey responses indicated that the program helped them delay placement of a loved one which is a significant increase from prior year surveys. Of those caregivers who stated that the program helped them delay placement of their loved one, the average delay was at least nine months. The average monthly Missouri cost of a nursing home is \$3,424. The average Medicaid cost savings is based on nine months of nursing home care. Some participants may not be Medicaid eligible at first, but could quickly become Medicaid eligible due to cost of Alzheimer's units in nursing facilities.

2d. Provide a measure(s) of the program's efficiency.

Average Program Participant Cost versus Nursing Facility Cost (Annual)

*Due to the timing of the program award, participant numbers were lower than previous years. The spin-up costs of the new contractor coupled with the lower participation numbers increased the average program participant cost. The average annual per participant cost to provide in-home caregiver training and respite services is substantially less than the amount it would cost if the participant was placed in a long-term care facility. Some participants may not be Medicaid eligible at first, but could quickly become Medicaid eligible due to cost of Alzheimer's units in nursing facilities.

2. CORE DESCRIPTION										
<p>This core funds the Senior Independent Living Program (SILP) (formerly Naturally Occurring Retirement Community or NORC), which establish programs, supports, and services within four local communities allowing seniors in the designated geographic areas to remain in the community rather than entering a long-term care facility. These programs support the healthy aging of older adults through increased community involvement and easy access to services that include transportation; socialization and education; assistance with household maintenance; healthcare; and volunteer opportunities.</p> <p>The SILP model promotes healthy aging, independence, and community building for adults 60 years of age and older in a designated service area through a multi-faceted approach. The key elements consist of case management and social work services; health care management and prevention programs; education, socialization, and recreational activities; and volunteer opportunities for the community to assist members of the SILP with household tasks. SILP allows aging in place with greater dignity, independence, and quality of life.</p>

1a. What strategic priority does this program address?

Whole Person Health Access.

1b. What does this program do?

The goal of the program is to improve the health and safety of Missourians age 60 and over in four Senior Independent Living Programs (SILP) within the state: Jewish Federation of St. Louis in Creve Coeur; A Caring Plus Foundation in Jennings; Palestine Senior Center in Kansas City; and Aging Best Senior Independent Living Program (SILP) in Columbia. The service area boundary for the Jewish Federation, a three mile radius of the Jewish Community Center Campus, was determined in their original federal grant from the Administration on Aging. The boundaries for A Caring Plus Foundation and the Palestine Senior Center are defined as a two-mile radius from each center's location. Aging Best SILP's service area targets the first and third wards in Columbia. The SILP program provides support to older adults living in urban areas with a population of seniors who have insufficient resources to age independently in their own homes.

2a. Provide an activity measure(s) for the program.

Senior Independent Living Program (SILP)

Program is found in the following core budget(s):

2b. Provide a measure(s) of the program's quality.

Each SILP provides the specific services needed to meet the individual needs of the eligible populations in their designated geographical areas. The most utilized services provided by each SILP in FY 2022 are listed by category in the four separate charts.

FY 2022 Services Provided by Category - A Caring Plus

FY 2022 Services Provided by Category - Jewish Federation

FY 2022 Services Provided by Category - Palestine Senior Center

FY 2022 Services Provided by Category - Aging Best AAA

*Socialization activities include book clubs, outings to events, movie nights, themed dinner nights, grandparent events, and other activities to provide opportunities for the older adults to be actively involved with others in their communities. Due to the COVID 19 Pandemic, the Senior Independent Living Program Contractors had to change the way they were providing services. They chose to focus on the services that could be provided safely during the pandemic.

2c. Provide a measure(s) of the program's impact.

SILP Residents Who Entered Nursing Facilities Compared to General Missouri Population 65+

*Average percentage of Missouri population 65+ residing in a nursing home (data retrieved from Centers for Medicare and Medicaid *Nursing Home Data Compendium* publication).

Participants in the program are provided supportive services to keep them in the environment of their choice, which is substantially less than the cost of a nursing facility. Participants in the program are able to remain in their homes at a significantly higher rate than the general population in Missouri.

2d. Provide a measure(s) of the program's efficiency.

Average Annual Cost Per Participant

SILP enrollment was affected by COVID-19 Pandemic, thus making the cost per participant increase. FY 2023 SILP enrollment is predicted to be affected by COVID-19 pandemic as enrollment relies on community interaction. The program provides services to participants at a cost much less than the average nursing facility cost while helping keep participants in their home. The average nursing facility cost per participant per year is \$41,088.

2. CORE DESCRIPTION														
The requested core funding is used to assist frail senior immigrants and refugees who have lawfully resided in Missouri for at least five years and who are not able to complete the normal naturalization process due to health barriers. Becoming a citizen allows these individuals to obtain federal benefits they would not otherwise qualify for after their initial 84-month eligibility period in the United States. These federal benefits, such as Medicare and Supplemental Security Income, relieve the financial obligation to state resources such as Medicaid.

1a. What strategic priority does this program address?

Whole Person Health Access.

1b. What does this program do?

This program is currently delivered through a contract with Bilingual International Assistance Services to provide assistance completing the naturalization process to frail senior immigrants and refugees throughout Missouri who have lawfully resided in Missouri for at least five years and who are not able to complete the normal naturalization process due to health barriers. Becoming a citizen allows these individuals to obtain federal benefits they would not otherwise qualify for after their initial 84-month eligibility period in the United States. These federal benefits, such as Medicare and Supplemental Security Income, relieve the financial obligation to state resources such as Medicaid.

2a. Provide an activity measure(s) for the program.

Participants Enrolled in the Program

*COVID-19 affected enrollments in the program for FY 2020, FY 2021, and FY 2022.
Due to the length of the citizenship classes participants can be enrolled for more than one program year.

PROGRAM DESCRIPTION

Health and Senior Services

HB Section(s): 10.835

Naturalization Assistance

Program is found in the following core budget(s):

2b. Provide a measure(s) of the program's quality.

FY 2022 PARTICIPANTS' PROGRESS TOWARDS NATURALIZATION

The goal of the Naturalization Program is to help individuals achieve their United States citizenship. The average length of time a participant stays in the program is nine months, but due to the complexity of some cases, individuals can be in the program for more than one year. While in the program, participants are evaluated to determine if they are able to take the citizenship test in English. If the participant is cognitively capable, they are put into the Tutoring Program where they learn English and work on the questions on the test. If they are not able to learn English due to their cognitive state; they are assisted in applying for a waiver, which allows them to take the test in their own language. In some rare cases, due to a person's health or reduced cognitive state, they are not able to take the citizenship test and a lawyer is hired to assist them in becoming naturalized. Participants can be moved from tutoring to waiver or lawyer if it is determined during the process that additional assistance is needed due to declining health or cognitive status.

Participants Achieving Citizenship

..... Stretch Target (60 participants)

COVID-19 affected program enrollments in FY 2020, FY 2021, and FY 2022, as well as the ability to complete the naturalization interview to obtain citizenship. The United States Citizenship and Immigration Services offices were closed from March through May of 2020 and have been working through the backlog of cases ever since. Due to the length of time it takes to complete the process of naturalization, about 20 to 25 percent of the participants complete the program during the year they enrolled; therefore, this measure could be incorporating participants from prior years. Noteworthy is that the majority of participants will complete citizenship in year two.

PROGRAM DESCRIPTION

Health and Senior Services

HB Section(s): 10.835

Naturalization Assistance

Program is found in the following core budget(s):

2c. Provide a measure(s) of the program's impact.

Participants Approved for Medicare

*COVID-19 affected enrollments in the program for FY 2020, FY 2021, and FY 2022. In addition, due to COVID-19 closures by the United States Citizenship and Immigration Services offices less individuals were able to achieve citizenship in SFY 2021. By becoming United States citizens, immigrant/refugee participants can apply for Medicare, which offsets the cost of healthcare for these individuals for the State of Missouri. Legal Permanent Residents (Green Card Holders) are eligible for Medicare after five years; this program also helps them with the application process for Medicare, so some become eligible for Medicare before they become U.S. Citizens.

2d. Provide a measure(s) of the program's efficiency.

Cost Savings to Missouri Medicaid Per Year

*COVID-19 affected enrollments in the program for FY 2020, FY 2021, and FY 2022. Once an individual is on Medicare, Medicare becomes the primary pay source relieving the state's Medicaid cost burden. The chart above represents the estimated annual cost savings to Missouri once an individual is approved for Medicare and Medicaid becomes the secondary payer. This savings would continue for each year the individual continues to live in Missouri.

2. CORE DESCRIPTION									
The Division of Regulation and Licensure (DRL) is composed of the Director's Office, Section for Long Term Care Regulation, Section for Health Standards and Licensure Section for Child Care Regulation, Family Care Safety Registry, and the Board of Nursing Home Administrators. These licensing (and certification for Medicare and Medicaid) programs include long-term care facilities (residential care facilities, assisted living facilities, intermediate care facilities, and skilled nursing facilities), adult day care providers, hospitals, ambulatory surgical centers, clinical laboratory services, mammography services, end stage renal dialysis centers, rural health clinics, home health agencies, hospices, outpatient physical therapy providers, comprehensive outpatient rehabilitation facilities, emergency medical technicians (basic, intermediate, and paramedic), air and ground ambulance services, trauma centers, stroke centers, ST-segment elevation myocardial infarction (STEMI) centers, and child care facilities. Further, the division registers persons and businesses that manufacture, distribute, prescribe, or dispense controlled substances. The Family Care Safety Registry provides background screening results for employees in the child care and elder care industries. The Board of Nursing Home Administrators test and license nursing home administrators. The Missouri Health Facilities Review Committee administers the Certificate of Need Program to achieve the highest level of health care for Missourians through cost containment, reasonable access, and public accountability. The mission of the Committee is fulfilled by reviewing applicable health care service proposals while taking into consideration community need. Division staff support complaint investigation, licensure, and survey/inspection activities required under Chapters 190, 192, 195, 197, 198, 210, 344, and 660, RSMo; various sections of 21 CFR and 42 CFR; the Mammography Quality Standards Act; the Clinical Laboratory Improvement Amendments; the Social Security Act (Medicare and Medicaid), and conditions of participation in the Medicare 1864 agreement with the Centers for Medicare and Medicaid Services.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Senate Bill 710 passed during the 2022 legislative session and requires the Department of Health and Senior Services (DHSS), Division of Regulation and Licensure (DRL), to create a program that monitors and collects required items for registration of each supplemental health care services agency (SHCSA) that conducts business in Missouri health care facilities, and to promulgate rules to adopt the provisions of the legislation and create forms to implement the process. The legislation also requires SHCSAs to provide health care facilities documentation that each health care personnel contracted meets all licensing, certification, educational, and background check requirements for the position they will be working. Additionally, DRL staff will conduct annual inspections of each registered SHCSA to verify compliance and investigate complaints filed on a SHCSA. Quarterly, any SHCSA that contracts with a Medicare/Medicaid certified health care facility must submit detailed lists of their average charges to each contracted facility for each individual health care personnel category and payments made by the SHCSA to health care personnel.

The number of SHCSA registrations submitted and number of compliance inspections and complaint investigations is unknown at this time, but could be over 1,000. Inspections and investigations conducted by the department could either be virtual or in person.

<p>4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)</p> <p>DHSS is unsure of the number of agencies that will apply to be registered, so a range of zero to 400 agencies was used as an estimate. This would require DHSS to complete up to 400 compliance inspections and up to 600 complaint investigations per year. The division assumes it will require the following FTEs to meet the requirements of the proposed legislation:</p> <p>One Regulatory Compliance Manager (\$77,000 based on equivalent level managers in the division) will be needed to promulgate rules, establish policies and procedures, and create applications and forms for the registration process. This manager will oversee the implementation of the program and program processes.</p> <p>One Public Health Program Specialist (\$45,593 based on the average starting salary in the division) will be responsible for the registration process and coordinating inspections, provide consultation on the application process and monitoring expirations. Additionally, this position will review the quarterly charge/payment reports submitted and prepare annual reports of aggregate data.</p> <p>One Administrative Support Assistant (\$31,200 based on the average starting salary in the division) will be responsible for data entry into databases to track registrants, inspections, and complaint investigations; issue registrations to agencies; monitor inspection packets; and assist in record retention.</p> <p>Seven Senior Regulatory Auditors (\$50,120 based on the average starting salary in the division) will be responsible for reviewing applications and attachments including ownership documents, insurance, bond and workers compensation documents, and contracts yearly. Regulatory Auditors will also be responsible for completing compliance inspections, complaint investigations and write up of each inspection/investigation completed.</p> <p>Three Accountants (\$50,866 based on the average starting salary in the division) will be needed to review applications and attachments including ownership documentation, policies/procedures, review insurance, bond, and workers compensation documentation, and contracts on a yearly basis. Additionally, the Accountants will review the quarterly reports submitted and prepare annual reports of aggregate data.</p> <p>Two Regulatory Auditors Supervisors (\$54,923 based on the average starting salary in the division) will be needed to provide direct oversight of the Senior Regulatory Auditors.</p> <p>The total need resulting from a combination of FTE and expense and equipment is \$1,213,720. Registration fees of a maximum of \$1,000 per registration will be collected and deposited into the state treasury and credited to the state general revenue fund.</p>

1b. What does this program do?

- Provides background screenings to assist employers and families with determining if a potential caregiver represents a risk to vulnerable person(s) in care. The results of this screening enable employers or families to rule out those who may represent risk. Caregivers for children, seniors, and disabled persons are required to register within fifteen days of hire.
- Background screenings include criminal history, sex offender registry information, child abuse and neglect information; employee disqualification lists for both DMH and DHSS, child care and foster parent license denials; revocations, and involuntary suspensions.
- Caregivers may work in the following locations: child care settings, children's residential facilities, long-term care facilities, mental health facilities, home health, hospice, in-home care or personal care agencies; or other organizations caring for children, seniors, or disabled persons.
- Collects a one-time registration fee that is deposited in the Criminal Record System Fund, which is administered by the Department of Public Safety.
- Background screening information is provided at no cost to the employer or family.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Federal Statutory and Regulatory Citations: Sections 1819, 1864, 1902, and 1919 of the Social Security Act and 42 CFR 488.1 to 488.456, 42 CFR Part 483, 42 CFR 483.1 to 483.480 require state survey agencies to conduct a recertification survey not later than 15 months after the last day of the previous recertification survey and to maintain a statewide average interval between recertification surveys of 12 months or less. Due to COVID-19 restrictions to suspend all recertification surveys and non-Immediate Jeopardy (NIJ) complaints in long-term care facilities, and the increase in the number of complaints the State of Missouri is currently receiving, the State is experiencing an increased volume of overdue NIJ complaints and recertification surveys. The number of complaints received by the State has increased (increase of 2,000 complaints per year compared to FY 2020) and continues to outpace its ability to investigate timely and make significant progress on overdue recertification surveys and complaints. Additionally, Missouri is experiencing a high volume of vacant Registered Nurse (RN) surveyor positions. RNs are responsible for conducting surveys and complaint investigations. With a larger workload and a shortage of RNs available to conduct surveys, the impact the state can make on the overdue surveys within the current budget is minimal. The Centers for Medicare and Medicaid Services (CMS) has two one-time funding opportunities to assist State Agencies to complete the following: Survey and Certification-\$2,000,000 CMS Cares Funding-Backlogged surveys and immediate jeopardy complaints \$1,150,834. These funding opportunities requires a twenty percent state share totaling \$630,167. DRL is requesting a one-time increase in appropriation of \$3,150,834 million in federal and \$630,157 in General Revenue.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The average cost for a recertification survey by contract agencies is \$25,000. Data estimates are based on the state receiving an additional \$2,500,000. This would allow the contracted surveyors to conduct 100 surveys per year. These 100 surveys, in addition to the surveys conducted by the state, would reduce and potentially eliminate the current survey backlog by the end of FY 2025, contingent on additional funding to increase salaries to eliminate current surveyor vacancies.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Federal Statutory and Regulatory Citations: Sections 1819 and 1919 of the Social Security Act and 42 CFR 488.433 require state survey agencies to use CMP funds entirely for activities that protect or improve the quality of care or quality of life for residents. CMP fund use must be approved in advance by CMS. 42 CFR 488.433 also requires a core amount of CMP funds to be held in reserve for emergencies, such as relocation of residents. This request is for an increase in appropriation authority to \$5 million. With the current appropriation authority, there is little opportunity to fund other CMP Projects if funds are available.

From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

There are currently the following projects/reserves approved for CMP fund use:

Emergency Reserve Fund – the Centers for Medicare and Medicaid Services (CMS) requires states to reserve a portion of the current Civil Monetary Penalty (CMP) fund balance for emergency situations, such as natural disasters and/or the relocation of residents pursuant to an involuntary termination from Medicare/Medicaid. For Missouri, CMS expects the amount of emergency reserve fund to be \$1,000,000.

Quality Improvement Program for Missouri (QIPMO) – This is a contract between DHSS and the University of Missouri-Columbia. QIPMO provides technical assistance and clinical support to long-term care nursing facility staff in their adoption of evidence-based clinical care and their advancement of excellence in long-term care facilities; focusing on Quality Indicators, Quality Measures, and clinical best practices accepted in the industry, including key QIs and QMs identified by CMS. For FY 2023, the project amount of CMP funds is \$1,134,931.

Enhanced Leadership Development Academy (ELDA) – This is a contract between DHSS and the University of Missouri – Columbia. The purpose of ELDA is to prepare licensed administrators and nurse leaders (RNs) in long-term care who can create and sustain improvement in their work settings, including ability to emphasize staff involvement, facilitate communication and teamwork, set clear expectations and ensure high standards of care. Long-term care leaders who are skilled at driving and sustaining desired change through quality improvement efforts are essential for improved resident outcomes, staff retention and ultimately impact the bottom line of the organization. For FY 2023, the project amount of CMP funds is \$127,934.

CMS Authorized Projects – Since the beginning of the COVID-19 pandemic, CMS has authorized three separate CMP funds disbursements for Medicare/Medicaid certified facilities to purchase communication devices, visitation aids and portable air purifiers. Each Medicare/Medicaid facility is eligible for up to \$3,000 for each authorization totaling \$4.6 million. If CMS should authorize another disbursement, this could result in up to an additional \$1,560,000.

1a. What strategic priority does this program address?

Develop a Framework to Apply Process Improvement Strategies to Licensing and Regulation Procedures.

1b. What does this program do?

- The mission of the Bureau of Narcotics and Dangerous Drugs (BNDD) is to:
- Maintain a registry of all entities and individuals that conduct activities with controlled substances and manage the statewide pseudoephedrine tracking database and issue waivers from mandatory electronic prescribing laws. Registrants include:
 - Physicians;
 - Dentists;
 - Veterinarians;
 - Pharmacies;
 - Hospitals;
 - Ambulatory surgical centers; and
 - Other entities.
- Identify the diversion or misuse of controlled substances without prohibiting their appropriate and effective use. Examples of the most common violations include:
 - Practitioner moving and not notifying BNDD;
 - Practitioner prescribed with no chart or established patient relationship;
 - Failure to maintain records to track and account for drugs in stock;
 - Failure to document controlled substance prescriptions in patient chart; and
 - Practitioner stealing and abusing drugs.
- Educate health professionals, other regulatory and law enforcement agencies, and the citizens of Missouri regarding controlled substance laws in Missouri.
- Administer one of the Prescription Monitoring Program via executive order and work with groups addressing opioid abuse.

HB 2331 passed during the 2022 legislative session and it requires the Department of Health and Senior Services (DHSS), Division of Regulation and Licensure (DRL) to add trauma centers to the list for which the DHSS provides the specified services and allows site reviews of trauma, stroke, or ST-Elevation Myocardial Infarction (STEMI) centers to occur on-site or by any reasonable means of communication, or by any combination thereof, and requires the site reviews to occur once every three years. Further, the bill removes the requirement for STEMI centers to submit data to DHSS and requires DHSS to access such data through national data registries or data banks. Hospitals will not be found in noncompliance if DHSS fails to obtain the data from the registries.

The Time Critical Diagnosis (TCD) program is a state-only volunteer program that designates hospitals, based on tier levels, as a Trauma, Stroke, or ST-Segment Elevation Myocardial Infarction (STEMI) center, that seeks to ensure that critically ill patients suffering from trauma, stroke, and certain types of heart attack (STEMI) are transported to a hospital that has the capability and capacity to treat them most effectively.

The TCD program was implemented in 2013 within section 190.241. The FY 2013 NDI underestimated the volume, scope of work required, and the needed FTEs. The program's first full fiscal year of operations was in FY 2014, and started with 30 designated trauma centers that have an on-site survey every five years. In FY 2020, all three TCD programs were in full operation with the continued 30 trauma centers, in addition to 68 stroke centers that survey every four years, and 59 STEMI centers that survey every three years, for a total of 157 TCD programs. The initial allocation did not provide specialized nursing and administrative support FTE to cover the ongoing work associated with the growing number of hospital surveys. It also did not account for the data collection, analyzation, and patient registry reporting obligations for the department, other DHSS divisions, and external stakeholders. It did not also account for complaint processing, periodic TCD program staff education to keep up with national healthcare standards, licensing software for the data component, and due to the COVID-19 pandemic, the technology to transition the on-site hospital surveys to a virtual survey process.

TCD assumes it will require the following additional FTE beginning September 1, 2022, to meet the requirements of the bill:

One Registered Nurse (salary \$60,842) will be needed to conduct inspections and investigate complaints of the now approximately 160 programs. This position is assumed to be a Jefferson City based employee and is expected to travel extensively; it is assumed that the travel cost will be \$10,103 annually.

One Administrative Support Assistant (salary \$31,200) will be needed to provide support for the program.

In addition to these needs, the COVID-19 pandemic has caused the TCD program to experience a backlog of initial and validation designation surveys, which will further increase the need to perform an increased volume of virtual, socially distant site surveys at hospitals. Related to this, and through collaboration with other state and national agencies, the TCD program has determined it has the authority and responsibility to produce and share statistical reporting in the areas of illness, injury prevention, and community outreach. The NDI submitted will result in not only increased capacity in the TCD program, but the ability to conduct virtual surveys.

The total need resulting from a combination of FTE, data support identified, per diem for Advisory Committee Members, travel and set up cost is \$316,158.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 58860C BUDGET UNIT NAME: Medical Marijuana HOUSE BILL SECTION: 10.900	DEPARTMENT: Department of Health and Senior Services DIVISION: Division of Regulation and Licensure
1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.	
DEPARTMENT REQUEST	
The department requests continuation of ten percent (10%) flexibility between personal services and expense and equipment granted by the legislature in FY 2023.	
2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.	
PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
\$0	HB 10.900 language allows up to ten percent (10%) flexibility between personal services and expense and equipment.
BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	
Expenditures will differ annually based on needs to cover operational expenses, address emergency and changing situations, etc. In addition, the level of governor's reserve, restrictions, and core reductions impact how the flexibility will be used, if at all. The department's requested flex will allow the department to utilize available resources in the most effective manner as the need arises. The department cannot predict how much flexibility will be utilized.	
3. Please explain how flexibility was used in the prior and/or current years.

2. CORE DESCRIPTION																																																																																											
The Section for Medical Marijuana Regulation enhances access to care for Missourians with qualifying conditions by accepting and processing patient and caregiver applications and annual renewals for Medical Marijuana Identification cards. In addition, the Section also accepts, processes, and awards facility licenses and certifications and conducts compliance inspections of licensed and certified facilities in order to enhance Missourian's access to care as authorized under Article XIV of the Missouri Constitution and associated rules 19 CSR 30-95.010 to 19 CSR 30-95.110. All funds received from application fees are deposited into the Veteran Health and Care Fund. After the Section's administrative expenses are paid, funds are transferred to The Veterans' Commission by way of this transfer.

2. CORE DESCRIPTION																			
The requested core funding invests in the 115 local public health agencies throughout Missouri that are essential to protecting the public's health. Local public health agencies are crucial partners with the state in providing public health services. The investment supports the delivery of services critical to the prevention of disease and the promotion of healthy families, lifestyles, and environments through an integrated and cooperative public health system. Monitoring disease incidence and responding to disease outbreaks (e.g., Hepatitis A, HIV, foodborne E-coli, and salmonella) is a primary responsibility. The public health system is vital in responding to public health emergencies and natural disasters by assuring safe food and water, identifying specific health needs within local communities, and mobilizing resources to address identified needs.																			
Challenges are constantly increasing due to global travel that brings new and unknown diseases into our state and communities. Newly emerging and re-emerging diseases such as Ebola and Zika viruses, pandemic virus strains including the novel coronavirus and Avian Influenza, as well as the resurgence of old ones (e.g., measles and whooping cough) and drug resistant diseases (e.g., tuberculosis) place new demands on the public health system to ensure that such diseases or agents are recognized early and measures are taken to protect and promote the public's health and safety. The public health system is further challenged by chronic diseases such as diabetes, heart disease, and risk factors including obesity and tobacco use. Reducing the burden of these diseases and risk factors improves the quality of life and decreases health care costs for Missourians.

1a. What strategic priority does this program address?
 Public Health System Building, Emerging Public Health Threats Preparedness, and Whole Person Health Access.

1b. What does this program do?
 The Department of Health and Senior Services (DHSS), Center for Local Public Health administers participation agreements with 115 local health agencies to ensure public health services are available in every county in Missouri. The presence of public health services at the local level is essential for protecting health and keeping people safe. The local health agencies are a vital partner in providing statewide services including, but not limited to, communicable disease surveillance and outbreak response, environmental surveillance (retail food, lodging, on-site sewage, childcare sanitation), immunizations, infectious disease testing and referral to care, chronic disease prevention and control education, public health emergency preparedness and response, and vital record issuance. The local health agencies have also been solely responsible for numerous areas of COVID-19 response, including but not limited to, enforcement of statewide and local orders, case investigation, and contact tracing.
 The funding administered through the participation agreements is not mandated for specific activities, but rather it allows local health agencies to utilize funding as needed within their own budget to deliver public health services in cooperation with DHSS. While DHSS is available for technical assistance and may lead activities in some program areas, public health services statewide would not be available without the existence of local public health agencies. State funding constitutes a different percentage of each local health department's total budget, but overall, public health in Missouri remains underfunded and funding is necessary to maintain local delivery of these services. The federal funding (50 percent of the total in FY 2023) distributed through these core participation agreements is the result of federal match received on expenditures reported by locals for specific unreimbursed services they have delivered to children age 0 through 19 (Children's Health Insurance Program Health Services Initiative (CHIP H.S.I.)). DHSS staff provide technical assistance regarding CHIP H.S.I. claiming, and collect and aggregate the expenditure data for all 115 agencies for quarterly submission to the Center for Medicare and Medicaid Services (through collaboration with Department of Social Services) in order to receive this match. The American Rescue Plan Act (ARPA) funding was appropriated for FY 2023 to supplement the core participation agreement for since the CHIP H.S.I. expenditures have dropped due to COVID-19. Besides funding support, the Center for Local Public Health staff provide a collaborative approach to quality services by holding orientations and trainings for new administrators and boards of health, connecting locals with staff throughout DHSS for specific programmatic technical assistance, and connecting locals with resources and programs through statewide and regional meetings offered throughout the year.

LPHAs receiving individualized training/technical assistance**	25	12	44	40	40	40
Regional Public Health Meetings, Statewide and/or New Administrator Meetings Offered***	3	2	3	3	3	3

*Independence closure 6/30/18 reduced the number of LPHAs to 114 starting FY 2019. Independence reopened in FY 2021 and will enter into a CORE agreement in FY 2022.

**LPHAs receive training/technical assistance regarding CHIP H.S.I claiming and new administrators, as well as, local boards of health orientation. Due to COVID-19, LPHAs were not as available for trainings as they have been in years prior. Higher numbers in FY 2022 were due to a large turnover in staff due to COVID which increased the need for trainings.

***Statewide meetings were discontinued in FY 2021. In-person group New Administrator Meetings were hosted beginning in FY 2022 and will continue. Regional meetings consist of the same agenda offered at six locations throughout the state. Due to COVID-19, the regional meetings have been held virtually but will resume in-person in FY 2023.

LPHA Meeting Attendees

Statewide meetings were discontinued in FY 2021. Due to the COVID-19 pandemic, Creating a Healthier Missouri meeting was not held in CY 2020 and CY 2021, but will be held in-person in CY 2022. CY 2021 Regional meeting was held virtually due to the COVID-19 pandemic, but will be held in-person in CY 2022. A group meeting for new administrators was established in CY 2021. It had a large turn out in CY 2021 and CY 2022 due to LPHA Administrator turnover after COVID but it is predicted that numbers should be around 15 to 20 attendees in years to follow.

2. CORE DESCRIPTION										
<p>The Department of Health and Senior Services (DHSS) State Public Health Laboratory (SPHL), Department of Agriculture (MDA) Animal Health Laboratory-Jefferson City, and Department of Natural Resources (DNR) Environmental Quality Laboratory are all experiencing laboratory building issues. The Missouri Department of Conservation (MDC) currently lacks centralized laboratory facilities to address evolving diseases and contaminants affecting Missouri wildlife. These issues are causing continued expenditures for building repair and/or inability to provide appropriate state laboratory services and anticipated new services. The MDA lab currently occupies borrowed space within the SPHL facility. The DNR lab currently occupies a building that has been in operation since 1991. All three laboratories and the MDC require additional space for continued operation and to meet trends in increased and specialty testing demands. Space issues for the SPHL and MDA lab were identified by a contracted consultant study in 2020. Industry standards indicate the maintenance and repair for the thirty year old DNR laboratory will reach over \$8 million within the next ten years. Funding is needed to construct new laboratory facilities to co-locate the four state agencies' laboratories together on one campus anchored by the existing SPHL building on the Missouri State Penitentiary redevelopment property. With this plan, the MDA, DNR, and MDC labs will operate in newly constructed laboratory facilities and the SPHL will expand into space vacated by MDA as well as areas in newly constructed space and shared areas. This will create a multi-agency "One Health" Laboratory Campus to provide one approach to human, animal, and environmental laboratory testing in Missouri. The benefits of these laboratories co-existing on a "One Health" campus include sharing information/knowledge regarding overlaps in testing and pertinent health/environmental discoveries, sharing technology/equipment/expertise/space where possible, and sharing access to general laboratory supplies and similar laboratory support services. The Missouri State Highway Patrol Crime Laboratory has subsequently joined the multi-agency laboratory campus effort with the construction of a new Crime Laboratory on the "One Health" Laboratory campus in a joint HB20 project (Section 20.135, \$104,662,200).</p>

1a. What strategic priority does this program address?

Public Health System Building.

1b. What does this program do?

For the design and construction of a multi-agency One Health Laboratory Campus, including new/additional building space, laboratory space, fixtures, equipment, systems furniture, and parking infrastructure for DHSS, MDA, DNR, and MDC. Total appropriation in HB 20.610 is \$78,626,000. This transformative investment in Missouri state agency laboratory infrastructure is a "One Health" approach to disease and environmental testing in Missouri and would create a unique campus of laboratory science functioning together in state-of-the-art facilities linked together to deliver quality, comprehensive and rapid laboratory services for current and future health/environmental threats to Missourians. The Missouri State Highway Patrol Crime Laboratory has subsequently joined the multi-agency laboratory campus effort with the construction of a new Crime Laboratory on the "One Health" Laboratory campus in a joint HB20 project (Section 20.135, \$104,662,200).

Additional one-time funding is necessary during FY 2023 for a payment under a contract with the Missouri Primary Care Association (MPCA). This contract aides in the development of a system of integrated and coordinated health care services by recruiting health care professionals and ancillary healthcare workforce in Missouri communities with a defined need for primary health care services. MPCA facilitates the placement of health care professionals into primary health care delivery sites within areas of defined need in Missouri, as well as hosting statewide training and Missouri Healthcare Workforce Coalition meetings.

2. WHY IS THIS SUPPLEMENTAL FUNDING NEEDED? INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Health Professional State Loan Repayment Program (SLRP) anticipates an increase in the grant award to Missouri. SLRP is a competitive federal grant program that allocates funds to states to award funding for educational loan repayment to Missouri licensed medical, psychiatry, and dental health professionals in exchange for services in Missouri areas with a provider shortage in those fields. Health care practitioners that are SLRP recipients earn forgiveness of their loan repayment award through a service obligation. The obligation is two years of service per award, which is based on full-time qualifying employment. DCPH is requesting an increase in appropriation authority to increase the number of health care practitioners providing services in Missouri's rural and underserved areas.

3. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why.)

The department anticipates a \$302,000 increase in the federal grant award to SLRP, however the funding was shifted to ARPA. The program budget for utilizing this increase is \$302,000 in loan repayment funding, \$33,618 in PS for existing employees currently being paid out of different funds, and \$13,554 in supplies. The total contract amount for the grant is 631,034 in loan repayment funding.

<p>The Coronavirus Response and Relief Supplemental Appropriation Act (CRRSA) granted states funding to be utilized on Adult Protective Services. Federal Statutory and Regulatory Citations: Sections 1819 and 1919 of the Social Security Act and 42 CFR 488.433 require state survey agencies to use Civil Monetary Penalty (CMP) funds entirely for activities that protect or improve the quality of care or quality of life for residents. CMP fund use must be approved in advance by CMS. 42 CFR 488.433 also requires a core amount of CMP funds to be held in reserve for emergencies, such as relocation of residents. This request is for an increase in appropriation authority to \$5 million with the current appropriation authority. There is little opportunity to fund other CMP Projects if funds are available.

There are currently the following projects/reserves approved for CMP fund use:

Emergency Reserve Fund – the Centers for Medicare and Medicaid Services (CMS) requires states to reserve a portion of the current Civil Monetary Penalty (CMP) fund balance for emergency situations, such as natural disasters and/or the relocation of residents pursuant to an involuntary termination from Medicare/Medicaid. For Missouri, CMS expects the amount of emergency reserve fund to be \$1,000,000.

Quality Improvement Program for Missouri (QIPMO) – This is a contract between DHSS and the University of Missouri-Columbia. QIPMO provides technical assistance and clinical support to long-term care nursing facility staff in their adoption of evidence-based clinical care and their advancement of excellence in long-term care facilities; focusing on Quality Indicators, Quality Measures, and clinical best practices accepted in the industry, including key QIs and QMs identified by CMS. For FY 2023, the project amount of CMP funds is \$1,134,931.

Enhanced Leadership Development Academy (ELDA) – This is a contract between DHSS and the University of Missouri – Columbia. The purpose of ELDA is to prepare licensed administrators and nurse leaders (RNs) in long-term care who can create and sustain improvement in their work settings, including ability to emphasize staff involvement, facilitate communication and teamwork, set clear expectations and ensure high standards of care. Long-term care leaders who are skilled at driving and sustaining desired change through quality improvement efforts are essential for improved resident outcomes, staff retention and ultimately impact the bottom line of the organization. For FY 2023, the project amount of CMP funds is \$127,934.

CMS Authorized Projects – Since the beginning of the COVID-19 pandemic, CMS has authorized three separate CMP funds disbursements for Medicare/Medicaid certified facilities to purchase communication devices, visitation aids and portable air purifiers. Each Medicare/Medicaid facility is eligible for up to \$3,000 for each authorization totaling \$4.6 million. If CMS should authorize another disbursement, this could result in up to an additional \$1,560,000.

2. WHY IS THIS SUPPLEMENTAL FUNDING NEEDED? INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.									
<p>Federal Statutory and Regulatory Citations: Sections 1819, 1864, 1902, and 1919 of the Social Security Act and 42 CFR 488.1 to 488.456, 42 CFR Part 483, 42 CFR 483.1 to 483.480 require state survey agencies to conduct a recertification survey not later than 15 months after the last day of the previous recertification survey and to maintain a statewide average interval between recertification surveys of 12 months or less. Due to COVID-19 restrictions to suspend all recertification surveys and non-Immediate Jeopardy (NIJ) complaints in long-term care facilities, and the increase in the number of complaints the State of Missouri is currently receiving, the State is experiencing an increased volume of overdue NIJ complaints and recertification surveys. The number of complaints received by the State has increased (increase of 2,000 complaints per year compared to FY 2020) and continues to outpace its ability to investigate timely and make significant progress on overdue recertification surveys and complaints. Of the 514 nursing homes regulated by DHSS, approximately 299 are overdue for a survey as of July 2022. Additionally, Missouri is experiencing a high volume of vacant Registered Nurse (RN) surveyor positions. RN's are responsible for conducting surveys and complaint investigations with a larger workload and a shortage of RN's available to conduct surveys, the impact the state can make on the overdue surveys within the current budget is minimal. The Centers for Medicare and Medicaid Services (CMS) has a onetime funding opportunities to assist State Agencies to complete this Survey and Certification. This funding opportunities requires a twenty percent state share.</p>

3. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why.								
The average cost for a recertification survey by contract agencies is approximately \$25,000 per survey. This would allow the contracted surveyors to conduct approximately 67 additional surveys. These surveys, in addition to the surveys conducted by the state, would reduce and potentially eliminate the current survey backlog by the end of FY 2025, contingent on additional funding to increase salaries to eliminate current surveyor vacancies.
